The California Refugee Healthy Marriage Project provides marriage enrichment educational programs and activities to strengthen refugee couples and families. It is known as the

Family Enrichment Program

The program trains Cambodian refugees and asylees in communication and listening, conflict resolution, cultural adaptation, decision making and parenting skills.

For further information, please contact:

A Non-profit Organization

FAMILY ENRICHMENT/ HEALTHY MARRIAGE Program

CAA Works in collaboration with other agencies in Long Beach to provide services and information to as many refugees as possible.

Family Enrichment Healthy Marriage Program

CAA has the privilege to work closely with refugee families that have experienced living under crisis conditions or need to re-adjust to a current moderate life style.

When families come to a new culture, it's important for every refugee parent to choose which old rules might need adjustment and which new rules should be added.

In healthy families, parents need to create a support system that involves: sticking together, helping children through cultural adjustments, and growing-up in their new country.

- Stay in charge with positive discipline
- Stay in charge with positive discipline and keeping children safe
- Enhance their relationships.

By developing

- positive communication skills
- Positive listening skills
- anger management
- conflict resolution skills

Every Family deserves to be :

- Happy
- Healthy

By Being

- Strong
- Understanding
